NEW RELEASES 2011

InteLex continues to release complete editions of important figures in the tradition in full-text electronic form. Some (e.g., *The Complete Works of George Eliot*) feature, along with the definitive editions of the novels from Oxford University Press, some texts which have long been out of print and are generally unavailable. Others (*The Class Lectures of John Dewey*; *The Correspondence of John Dewey*; *Otto Weininger: Kritische Online-Ausgabe der Werke und Briefe*) have never appeared in print and are available only as electronic editions from InteLex. Still others (*Works of Daniel Defoe*; *The Collected Works of John Dewey*; *The Collected Works of Ralph Waldo Emerson*; *The Early Lectures of Ralph Waldo Emerson*; *The Journals and Miscellaneous Notebooks of Ralph Waldo Emerson*; *G.W.F. Hegel: Vorlesungen*; *The Works of William James*; *The Correspondence of William James*) are recognized as definitive editions in print on which all future research will be based. The electronic editions from InteLex will play an important role in this research.

InteLex's resources in philosophy and social thought have long been a mainstay of our collection at the Electronic Text Service. The company's selection of resources, careful text editing, and sensitivity to the budgetary constraints of academic institutions make them a model of what scholarly academic publishing in the electronic field should be.

Pickering & Chatto has finally made Defoe's works easily available, and the benefits are already discernible in the increase in excellent criticism on texts previously available primarily on microfilm.

Eighteenth-Century Studies*

Published on schedule in only eight years in a handsome and eminently readable format, the Works of Daniel Defoe will both advance Defoe studies and enlarge our understanding of the period. They are a fine tribute to the scholarly acumen and determination of the General Editors, W. R. Owens and P. N. Furbank.... We are all very much in their debt.
