INTELEX CORPORATION
PAST MASTERS TITLES 2017

<http://www.nlx.com>

InteLex Corporation's *Past Masters* series encompasses the largest collection of full-text electronic editions in philosophy in the world. The series includes significant collections in the history of political thought and theory, religious studies, education, German studies, sociology, the history and philosophy of science, economics, and classics. InteLex acquires and develops definitive editions of the full corpora of the seminal figures in the history of the human sciences, including published and unpublished works, articles, essays, reviews, and correspondence. The *Past Masters* series has opened a new and exciting chapter in the history of scholarly research, and is now being utilized at over 200 research libraries in North America and Europe, and at over 1300 institutions in 46 countries worldwide.

Past Masters titles reproduce definitive print editions in highest quality electronic form. All of the print apparatus is included and is fully searchable. Full-text searching may be made within any single volume, across an entire collection, or across all titles. InteLex also publishes content, unique to our series, that has never existed in print, such as *The Correspondence of John Dewey: 1871-1952* or *Wittgenstein: Gesamtbriefwechsel*.

Following is a complete list of *Past Masters* titles. For complete bibliographical information on the *Past Masters* series please visit our website at <http://www.nlx.com>

Astonishing in breadth and depth, the content in this formidable file, as well as the research material included in every one of the scholarly editions available, is superb throughout.

. . . This title should be owned by every research library serving serious scholars in the humanities.

In the world of scholarly electronic publishing, InteLex continues to get it right, as they have from the beginning: working closely with scholarly editors, selecting high-quality editions to digitize, marking them up carefully and well according to international standards, and permitting libraries either to rent them over the Internet or to purchase, own and locally house them, as we do print editions — all at reasonable prices.

I recommend InteLex databases to libraries wholeheartedly, not only because they are superior publications and a good deal, but also because InteLex is the kind of electronic publisher that academic libraries need most in the 21st century.

The Bottom Line: Past Masters is an essential online resource for its target audience, upper-level undergraduates and scholarly researchers. Not only does it make key philosophical works accessible on users' desktops 24/7, but it also provides in-text citations and searchable text. In addition, à la carte database customization makes it financially accessible not only to large universities and research libraries but also to smaller academic institutions and medium to large public libraries, for which it is recommended highly.
